

SUPPLEMENTARY FIGURE S1 SOURCE ROUTE

Next.js online benchmark resource

This route is a browser-rendered companion layout for publication screenshots. It reuses the same sanitized JSON payload as the exported site and presents a compact six-panel online-resource summary.

A LANDING SUMMARY

200

Records

balanced

scores

6

Redacted

restricted public rows

PUBLICATION-SAFE CONTRACT

The figure, static export and supplementary table are generated from the same sanitized manifest: public accessions remain linkable, while restricted rows keep cohort-level reproducibility without disclosing nonpublic accession or file tokens.

JSON EXPORT

F ONLINE RESOURCE INTEGRATION

1

PeterPony homepage

Identity root lists scCCVGBen in the public graph route strip.

2

scPortal

Discovery hub connects datasets, benchmarks, models and public tools.

3

scCCVGBen resource

Static Next.js export serves searchable benchmark metadata and paper figures.
